The Consultant shall check and approve samples, schedules, shop drawings and other submissions for conformance with the concept of each Project, and for compliance with the information given by the Construction Documents. The Consultant shall also prepare Change Orders, assemble written guarantees required of the Contractor, and approve progress payments to the Contractor based on each Project Schedule of Values and the percentage of Work completed.

Among those shall be change orders which are identified as architectural/engineering errors or omissions. An error determined to be caused solely by the Consultant and the costs of which would not otherwise have been a necessary expense to the City for the project, shall be considered for purposes of this agreement to be an additional cost to the City which would not be incurred without the error.

If the Consultant is not the Construction Manager for the construction, the City shall notify the Consultant within 3 days of the discovery of any architectural/engineering error or omission so that the Consultant can be part of the negotiations resolving the claim between the City and the Contractor. So long as the total additional cost of construction for all errors caused solely by the Consultant remain less than Five Percent (5%) of the total construction cost of the project, the City shall not look to the Consultant and/or its insurer for reimbursement for additional costs caused by errors and omissions. However, the Consultant shall be required to provide, at no cost to the City, services including redesign if necessary to resolve the error or omission. Should the sum of the additional construction costs for errors in total exceed Five Percent (5%) of the total construction cost, the City shall be entitled to recover the full and total additional cost to the City as a result of Consultant errors and omissions from the Consultant. To obtain such recovery, the City shall deduct from the Consultant's fee a sufficient amount to recover all such additional cost to the City up to the amount of the Consultant's insurance deductible. Should additional costs incurred by the City exceed the Consultant's insurance deductible, the City shall look to the Consultant and the Consultant's

insurer for the remaining amount of additional construction costs incurred by the City. The recovery of additional costs to the City under this paragraph shall not limit or preclude recovery for other separate and/or additional damages which the City may otherwise incur.

- 2.6 The Consultant shall carefully review and examine the Contractor's Schedule of Values, together with any supporting documentation. The purpose of such review and examination will be to protect the City from an unbalanced Schedule of Values which allocates greater value to certain elements of each Project than is indicated by industry standards, supporting documentation, or data. If the Schedule of Values is not found to be appropriate, it shall be returned to the Contractor for revision or supporting documentation. After making such examination, when the Schedule of Values is found to be appropriate, the Consultant shall sign the Schedule of Values indicating informed belief that the Schedule of Values constitutes a reasonable, balanced basis for payment of the Contract price to the Contractor.
- 2.7 The Consultant shall perform on-site construction observation of each Project based on the Construction Documents in accordance with Paragraph 2.12 of this Agreement. The Consultant's observation shall determine the progress and quality of the work, and whether the work is proceeding in accordance with the Construction Documents. The Consultant will provide the City with a written report of each site visit in order to inform the City of the progress of the Work. The Consultant shall endeavor to guard the City against defects and deficiencies in the work of Contractors, and make written recommendation to the City where the Work fails to conform to the Construction Documents. Based on such observation and the Contractor's Application for Payment, the Consultant shall determine the amount due to the Contractor and shall issue Certificates for Payment in such amount. These Certificates will constitute a representation to the City, based on such observations and the data comprising the Application for Payment, that the work has progressed to the point indicated. By issuing a Certificate for Payment, the Consultant will also represent to the City that, to the best of its information and belief, based on what its observations have revealed, the work is in accordance with the Construction Documents. The Consultant shall conduct observations to determine the dates of substantial and final completion and issue a recommendation for final Payment.
- 2.8 The Consultant shall revise the Construction Drawings and submit record or corrected drawings to the City to show those changes made during the construction process, based on the marked up prints, drawings and other data furnished by the Contractor.
- 2.9 The Consultant shall attend regularly scheduled progress meetings on site.

- 2.10 The Consultant shall prepare construction Change Orders for the City's approval. Consultant shall not authorize any changes in the work or time, no matter how minor, without prior written approval of City.
- 2.11 Each project's construction or demolition shall be considered complete upon compilation of a punch list by Consultant, written notification to Contractor by Consultant of all releases of lien and written recommendation by Consultant of final payment to the Contractor, which shall be the sole decision of the City.
- 2.12 Resident Project Services. During the construction progress of any work the Consultant will, if authorized by the City, provide resident project inspection services to be performed by one or more authorized employees ("Resident Project Representative") of the Consultant. - 3.3 Miscellaneous Architectural Services. From time to time the City may require assistance from the Consultant for miscellaneous small projects, inspections and attendance at meetings if requested by the City, which are unrelated to any ongoing project for which a Work Authorization has been approved, and to review developers' plans, or on other matters. The Consultant will provide these services only when authorized by the City Manager or his designee. The Consultant shall invoice the City on a monthly basis for such miscellaneous services.

ARTICLE 4

CITY'S RESPONSIBILITIES

- 4.1 The City shall do the following in a timely manner so as not to delay the services of the Consultant:
- 4.1.1 Designate in writing a person to act as the City's representative with respect to the services to be rendered under this Agreement. Such person shall have complete authority to transmit instructions and receive information with respect to the Consultant's services for a particular project.
 - 4.1.2 Provide all criteria and full information as to the City's requirements for the Project, including design objectives and constraints, space, capacity and performance requirements, flexibility and expandability, and any budgetary limitations.
 - 4.1.3 Assist the Consultant by placing at the Consultant's disposal all available information pertinent to the Project including previous reports and any other data relative to design or construction of the Project.
 - 4.1.4 Furnish to the Consultant, if required for performance of the Consultant's services (except where otherwise furnished by the Consultant as Additional Services), the following:
 - 4.1.4.1 Data prepared by, or services of others, including without limitation borings, probings and subsurface explorations, hydrographic surveys, laboratory tests and inspections of samples, materials and equipment;
 - 4.1.4.2 Appropriate professional interpretations of all of the foregoing;
 - 4.1.4.3 Environmental assessment and impact statements;

- 4.1.4.4 Property, boundary, easement, right-of-way, topographic and utility surveys;
- 4.1.4.5 Property descriptions;
- 4.1.4.6 Zoning, deed and other land use restrictions;
- 4.1.4.7 Approvals and permits required in the City's jurisdiction and those from outside agencies unless such approvals and permits are the responsibility of the Consultant, all of which the Consultant may use and rely upon in performing services under this Agreement; and
- 4.1.4.8 Arrange for access to and make all provisions for the Consultant to enter upon the City's property as required for the Consultant to perform services under this Agreement.

ARTICLE 5

SEQUENCE OF SERVICES AND TIME FOR PERFORMANCE

- 5.1 This Agreement shall commence upon the execution by both parties and shall continue for an initial period of three (3) years, unless terminated sooner as provided for in this Agreement. The Consultant understands and acknowledges that the Services to be performed during the three (3) year term will be governed by this Agreement, and that there is no guarantee of future work being given to the Consultant.
- 5.2 Parties agree and understand that this Agreement shall be renewable after the expiration of the initial three (3) year period with terms and conditions to be agreed upon by City and Consultant.
- 5.3 Following receipt of any written work authorization the Consultant shall submit to the City, at least five (5) days prior to actually commencing services, a schedule of services and expenses for approval by the City before any services commence. The City reserves the right to make changes to the sequence as necessary to facilitate the services or to minimize any conflict with operations.

Work authorizations will be issued to the Consultant in the order in which the City wishes, and shall be performed and completed in the order they are issued, unless otherwise specifically permitted by the City. Minor adjustments to the timetable for completion approved by City in advance, in writing, shall not constitute non-performance by Consultant pursuant to this Agreement.

- 5.4 When the City issues work authorizations to the Consultant, each authorization will contain a stated completion schedule. Failure of the Consultant to meet the stated schedule will constitute a default, for which payment for services may be withheld until default is cured. Time extensions will be reviewed, upon request, for extenuating circumstances.

It is anticipated and intended that the Consultant will be authorized to begin new work authorizations on a “rolling” basis, as some already assigned work authorizations near timely completion. If a subsequent work authorization is issued to the Consultant before it has completed the current work authorization, the completion date for each work authorization will remain independent of each other, so that the Consultant will prioritize the uncompleted work authorization from the first work authorization and finish them as soon as practical. Failure to complete these “older” work authorizations in a timely manner may adversely impact upon continued early authorization to start a subsequent work.

- 5.5 When the Consultant has exceeded the stated completion date, including any extension for extenuating circumstances which may have been granted, a written notice of Default will be issued to the Consultant and payment for services rendered shall be withheld.
- 5.6 Should the Consultant exceed the assigned completion time of an individual work authorization, the City reserves the right not to issue to the Consultant any further work authorizations until such time as there is no longer in a Default and the Consultant has demonstrated, to the City’s satisfaction, that the reasons for tardy completion have been addressed and are not likely to be repeated in subsequent work authorizations. This restricted issuance provision may result in the Consultant not being issued all of the planned work the City anticipated in this Agreement. The Consultant shall have no right to the balance of any work, nor to any compensation associated with these non-issued work authorizations, due to the Consultant being in Default.
- 5.7 Should the Consultant remain in Default for a time period of fifteen (15) consecutive calendar days, the City may, at its option, retain another Consultant to perform any Work arising out of this Agreement and/or terminate this Agreement.

ARTICLE 6

DELAY IN PERFORMANCE/SUSPENSION OR ABANDONMENT

- 6.1 City shall be entitled to withhold progress payments to Consultant for services rendered until completion of services to the City’s satisfaction.
- 6.2 A delay due to an Act of God, fire, lockout, strike or labor dispute, manufacturing delay, riot or civil commotion, act of public enemy or other cause beyond the control of

Consultant, or by interruption of or delay in transportation, labor trouble from whatever cause arising and whether or not the demands of the employees involved are reasonable and with City's power to concede, partial or complete suspension of City's operations, compliance with any order or request of any governmental officer, department, agency, or committee shall not subject City to any liability to Consultant. At the City's option, the period specified for performance of services shall be extended by the period of delay occasioned by any such circumstance, and services omitted shall be made or performed during such extension, or the services so omitted shall extend this Agreement for a period equal to such delay. During this period such delay shall not constitute a delay by the Consultant.

- 6.3 If a project is suspended for the convenience of the City for more than six months, or abandoned in whole or in part for the convenience of the City under any phase, the City will give written notice to the Consultant of such project abandonment or suspension. The Consultant will be compensated only for work completed prior to abandonment or suspension. The City will not be liable for stand-b7, overhead, or any other cost direct or indirect, that the Consultant may incur outside of any direct costs associated with a project. If a project is resumed after having been suspended for an excess of six months, the Consultant's further compensation may be renegotiated, but the City shall have no obligation to complete the project.

ARTICLE 7

COMPENSATION AND METHOD OF PAYMENT

- 7.2 The Consultant shall submit to the City for approval, prior to actual performance, the anticipated number of hours to be expended and the personnel to be assigned to each Project. If the services are performed in accordance with the City's approved expenditure of hours and utilization of personnel, the Consultant shall be entitled to invoice for work authorizations as they are completed. The Consultant shall submit an original invoice and one copy to the City. This will be considered the official request for payment. The invoices shall include the following information:
