

City of Miami Gardens Calendar Year 2025 Ridership

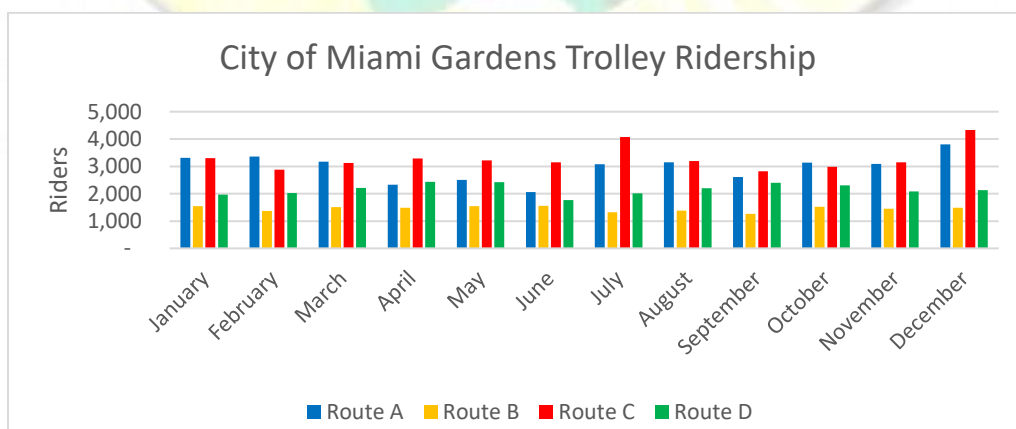

The City of Miami Gardens offers two convenient transportation services for residents: the Trolley and FreeBee, both provided at no cost. Launched in December 2025, FreeBee operates six on-demand rideshare vehicles that offer door-to-door services.

The chart below presents monthly data for four trolley routes for the City of Miami Gardens spanning January 2025 through December 2025. Each route's monthly data represent operational metrics such as passenger counts. This data provides a comprehensive overview of route performance trends over the calendar year 2025, useful for transportation planning and strategic analysis.

Month	Route A (Blue Route)	Route B (Orange Route)	Route C (Red Route)	Route D (Green Route)
January	3,309	1,545	3,295	1,968
February	3,355	1,365	2,875	2,024
March	3,177	1,513	3,120	2,215
April	2,330	1,484	3,287	2,438
May	2,507	1,542	3,219	2,419
June	2,058	1,558	3,146	1,770
July	3,078	1,321	4,075	2,008
August	3,152	1,385	3,192	2,206
September	2,610	1,263	2,816	2,398
October	3,140	1,521	2,987	2,301
November	3,092	1,449	3,154	2,084
December	3,800	1,489	4,329	2,131
Total	35,608	17,435	39,495	25,962

Trolley Key Observations:

- Route C recorded the highest annual total with 39,495, indicating consistently strong performance across all months.
- Route A followed with 35,608, showing steady activity throughout the year.
- Route D achieved a total of 25,962, with notable peaks in April and May.
- Route B had the lowest annual total at 17,435, though its monthly ridership remained relatively stable.

Trolley Monthly Highlights:

- December was the peak month for all routes, especially Route C (4,329 passengers) and Route A (3,800 passengers).
- June saw the lowest figures for Route A (2,058 passengers) and Route D (1,770 passengers), suggesting a seasonal dip.
- July marked a significant surge for Route C (4,075 passengers), the second-highest monthly value for that route.

FreeBee Key Observations:

In December 2025, FreeBee completed 3,780 rides, transporting a total of 5,200 passengers, resulting in an average of 1.38 passengers per ride. With a fleet of six vehicles, each vehicle transported an average of 27.95 passengers daily citywide.
